📍 Bogor, Indonesia

## SKILLS

- HTML & CSS
- Tailwind CSS
- UI/UX Design
- JavaScript
- Database

## LANGUAGE

- English
- Arabic
- Indonesian

## ABOUT ME

Hello! I'm a student with a deep passion for technology. Although I'm still in school, I'm actively honing my skills as a full-stack developer and UI/UX designer. I enjoy turning ideas into code and creating interactive and functional web interfaces.

## EXPERIENCE

**Software Engineering Students** 2025 – Now  
SMK Madinatulquran

- Learning the basics of programming (HTML, CSS, JavaScript)
- Creating a simple website project using HTML and Tailwind CSS
- Understanding the basics of programming logic and algorithms
- Working in a team to complete school project assignments
- Developing a simple UI for web pages

### Web Development Project (Student Project)

Personal Projects / School Projects 2025

- Creating a simple website (landing page / portfolio)
- Designing a responsive and visually appealing website layout
- Implementing HTML and CSS to create layouts
- Developing problem-solving skills through code debugging

## EDUCATION

**PKBM CAHAYA SUNNAH** 2025 – 2026  
middle school student

**SMK MADINATUL QURAN** 2022 – 2025  
IT vocational high school student
